

## Green Building Trends: Europe (Hardback)

Filesize: 5.46 MB

### Reviews

*Basically no words to clarify. Of course, it is perform, still an amazing and interesting literature. Its been printed in an exceptionally basic way which is only soon after i finished reading through this ebook where actually altered me, change the way i really believe.*

*(Newton Runolfsson)*

## GREEN BUILDING TRENDS: EUROPE (HARDBACK)

[DOWNLOAD](#)

Island Press, United States, 2009. Hardback. Book Condition: New. 254 x 206 mm. Language: English . Brand New Book. This title is the first in a series of essential overviews of green building trends from around the world. The green building revolution is a worldwide movement for energy-efficient, environmentally aware architecture and design. Europe has been in the forefront of green building technology, and *Green Building Trends: Europe* provides an indispensable overview of these cutting edge ideas and applications. In order to write this book, well-known U.S. green building expert Jerry Yudelson interviewed a number of Europe's leading architects and engineers and visited many exemplary projects. With the help of copious photographs and illustrations, Yudelson describes some of the leading contemporary green buildings in Europe, including the new Lufthansa headquarters in Frankfurt, the Norddeutsche Landesbank in Hannover, a new school at University College London, the Beaufort Court Zero-Emissions building, the Merck Serono headquarters in Geneva, and a zero-net-energy, all-glass house in Stuttgart. In clear, jargon-free prose, Yudelson provides profiles of progress in the journey towards sustainability, describes the current regulatory and business climates, and predicts what the near future may bring. He also provides a primer on new technologies, systems, and regulatory approaches in Western Europe that can be adopted in North America, including building-integrated solar technologies, radiant heating and cooling systems, dynamic facades that provide natural ventilation, innovative methods for combining climate control and water features in larger buildings, zero-net-energy homes built like Thermos bottles, and strict government timetables for achieving zero-carbon buildings. *Green Building Trends: Europe* is an essential resource for anyone interested in the latest developments in this rapidly growing field.
