RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 76 pages. Original publisher: Silver Spring, Md. : U. S. Dept. of Commerce, National Oceanic and Atmospheric Administration, National Marine Fisheries Service, 2007. OCLC Number: (OCoLC)251520186 Subject: Marine resources conservation -- Northeastern States. Excerpt: . . . n n n l 1 1 2 LP P i . . . . . P 1 2 i Ji i i n i l n 1 1 1 j which simplifies to l J ij f ( 6 ) Lln P. ij i j11 Defining a dummy variable f, where f 1 when alternative j is chosen and f 0 ij ij otherwise, the function can be can be written as l J ( 7 ) L f ln P. ij ij i1 j1 By replacing the term P with ( 5 ), the only unknown parameters are the elements of, ij which are estimated through maximum likelihood techniques. The multinomial logit model above is a popular choice for modeling discrete choice data, and when data are rich and disaggregate the model is often robust ( in terms of prediction success ) to the implicit behavioral assumptions arising...

### Reviews

*It is an awesome publication which i actually have ever read through. it had been writtern really properly and valuable. I found out this book from my i and dad recommended this pdf to discover.*

-- **Doyle Schmeler**

*This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.*
