The Orbit Method in Representation Theory: Proceedings of a Conference Held in Copenhagen, August to September 1988

By Pederson

Birkhauser. Paperback. Book Condition: New. Paperback. 230 pages. Dimensions: 9.2in. x 6.1in. x 0.6in.Ever since its introduction around 1960 by Kirillov, the orbit method has played a major role in representation theory of Lie groups and Lie algebras. This book contains the proceedings of a conference held from August 29 to September 2, 1988, at the University of Copenhagen, about the orbit method in representation theory. It contains ten articles, most of which are original research papers, by well-known mathematicians in the field, and it reflects the fact that the orbit method plays an important role in the representation theory of semisimple Lie groups, solvable Lie groups, and even more general Lie groups, and also in the theory of enveloping algebras. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
