Furthermore, the ICT Security Policy System is to be designed, developed in order to assist the Information Technology Department (BTM). In addition, these documents must be compliant to the ISO 27001 standard and the Information Technology Security and Communication Policies for the Public Sector which is developed by MAMPU. The ICT Security Policy System is a web based system. All results would be presented and discussed. ICT Security Policy is a common topic that is being discussed in the public sector, because security incidents happen to organizations that offer online services to the public. These problems or incidents are also affecting the IT Department (BTM) at Marang District Council (MDM), as we also provide computer and internet facilities to our users. Based on the research findings, including inputs gathered from the...
